Otherwise it certainly is a wonderful book.

By Aures Garcia De Paredes

The book is very didactic and conceptually clear. It walks you through the process of growing your own Bonsai in an orderly fashion and provides different options to the growing process. The only missing element in the book is an appendix of the tools used to grow the Bonsai. Otherwise it certainly is a wonderful book.

A complete guide!

By Malia Ruiz

My husband presented me this book for my birthday. The last summer I was in Japan and visited an exhibition of beautiful bonsai trees.

Now, bonsai is my passion. Hitomi Nakamura managed to explain all nuances, that are very important for the beginners.

Excellent guide! Do not hesitate, get it.
