One of the Best Books I'll Ever Read

By Michelle Hutzler

Luckily, one of my friends got me a pre-released copy signed by Jason and personalized by him. My friend knows that I have been following Jason for years (probably 3 or so at this point) and knows that I want to turn my crazy ideas into reality, so as an early birthday present, she got me a copy of Creativity For Sale.

Normally, I'm not much for reading this type of book, however, I have been giving heavy thought on turning my idea into a reality. After finishing this book, I can honestly say I feel prepared to start my new venture and finally make a decision in my crossroads of my life right now.

Jason goes step-by-step on how best to start a new business and also gives some mistakes that he has made over the years through his businesses. He doesn't downplay the importance of certain things and doesn't glorify anything. He calls it how he sees it. Which is truly refreshing.

After reading CFS, I feel truly inspired and want to do something with my life and even put down the book about halfway through just so I could clean out my garage (which, mind you, has been pestering me since about a month after we moved in which was over a year ago). It's not that Jason gives you motivational quotes and blah, blah, blah; he gives you the tools to get things done in a plain, witty language that speaks to the entrepreneur in most of us. And, yes, you read that correctly, most of us. I say most of us because as Jason warns, owning your own business is probably the most stressful and most rewarding job out there, but I want to add that it is not for the faint of heart.

So, in conclusion, if you want to start a business or launch a new product/service, THIS is the book for you.
