By jeremy westine

not much insight or substance to this book that you didn't already experience in her first book "insatiable". Personally I believe this book should have been incorporated into "insatiable" and sold as one memoir, not two.

A long blog post with a price tag.

By Amazon Customer

I read her first book and pretty much loved it, it was so refreshing seeing a new outlook on life and hearing about someone else's wild experiences. This book, however, did not give me that same satisfaction. She claims to be writing for hours every day in this book, but those writings must not be in this book because this book doesn't seem like it would take more than a week to write. I was really expecting more from Asa, especially with her second book. More structure, more of a story. All I got were some funny stories and diary entries collected throughout the year. I really wanted to enjoy it as much as I did her first book, but being an author, each book should be better than the last, not the other way around. With that being said, if you're looking for a fun, random read of a few funny stories, Asa does not disappoint. If you're looking for something that tops her first book, I suggest waiting until she comes out with her fiction book and give her a chance then. Asa's talent shines when it comes to wit and humor, she just needs some work on writing with a big picture in mind.
