Get it done fast with "Instant EdgeSight for XenApp"

By James

Edgesight is a wonderful product. It will bring your Xenapp deployment to new levels, reporting on performance and whats going on in user sessions is a breeze. This book is an easy read compared to other documents I have read. It provides an easy to follow guide to getting the product installed and configured in days, not weeks. Highly recommend this if you are looking to just getting it done.

Needs more depth.

By tabularasa

Overall the book is good. It's easy to read and gets your EdgeSight installation up and running quickly. If you are a more advanced user and were hoping to get more detailed information to help you customize your existing EdgeSight implementation, this book is not for you.
