LOST GODS: SUMMONERS BOOK TWO (VOLUME 2) BY A.M. YATES PDF

Lost her mother. Lost her home. Lost her destiny. Now, Josie Day is about to lose the one bright light that has kept her from plunging into total darkness—a summoner hidden behind a mask of fire. Although she unmasked her mother's murderer, revealing the traitor within her tribe, the threats keep coming. Her new power is linked to a forbidding prophecy. Death lurks in every pathway. A wolf prowls the city streets. As Josie struggles to find her way in her new home, her new life, and her new destiny, she will finally uncover another face shrouded behind the mask of a god. And she will lose even more.

Imaginative and fantastic

By Pam D

These books are really fun. The visuals in my head are amazing. She does a wonderful job describing the indescribable.

This is a good, fluid follow-up to the first book. Things hinted at and foreshadowed are revealed, but not all, and very craftily. I'm still wanting more.

The central characters are all teenagers, with loads of teenage angst, but it's well-written and not annoying.

minor gods, review

By Ariel D.

Lost Gods is the second book in Yates' Summoners trilogy. I was originally approached by her to read through and review the first book. And I ate through it within 24 hours. And it's not a tiny book, either; it's got quite a decent length to it. It was just impossible to put down. Once I started reading, I refused to put it down.

Now, it must be said, I've been reading these books on my cellphone, so naturally I've been able to carry them around with me literally everywhere. And I love it that way. Josie's growth in this book is beautifully orchestrated, as well as is the evolution of her Triune sister Tessa. Lost Gods delves deeper into Core lore and history, and we learn more about what it is to be a Mask Maker, and maybe a little more about what it ISN'T to be a Triune.

There's still a lot of mystery around Fog God (and, if you didn't read Simone's Epilogue, a lot of mystery around the Volcano God) and more than enough frustration to keep you going. A few times reading I had to put my phone down to recompose myself. Yates has a very... personal way of writing. It's a style that's familiar and yet comes to get you in just the right spot. I suppose you could say I'm a little biased because I've been through things similar to Josie herself (of course, I'm not saying I was being trained to become the owner of the Tripartite mask or anything like that), but then again I'd like to give credit where it's due. Yates just seems to write characters you can relate to.

And I have to say, she's certainly a talented weaver where Doubt is concerned. With a capital D. There are a couple of (important) plot twists, and the entire time you're left guessing exactly who's who and what's what. I was blaming a few separate character for some pretty terrible things, but then was quick to swallow my ire as I kept reading. That's some pretty good talent, right there; to make you suspect and hate a character without any real, tangible proof, and then make you actually feel guilty about it.

But I digress. I'm already onto the third book of the Summoners trilogy, and I'm hoping to finish it today. Maybe tomorrow, if I take it slow. (Which I probably won't. It's too good.)

A+ to A.M. Yates for another amazing installation in this series. And I'll also blame her for the fact that I have several bracelets on my arm (it looks like a gosh darn cuff at this point) made of engraved stones. I may have turned into a would-be Simone. Woops?

Did not disappoint

By book lover

I enjoyed it just as much as the first book. It was fast paced and drew me even further into the world the author created.
