Yeah, online book [Return To Ravnica: The Secretist, Part One By Doug Beyer](#) is a kind of digital publication that you can get in the link download offered.

# RETURN TO RAVNICA: THE SECRETIST, PART ONE BY DOUG BEYER PDF

Jace Beleren has the power to travel between planes of the Multiverse, but with this gift comes isolation. He is one in a million. He is a planeswalker. And he is on the edge of a mystery that could alter the face of his adopted home—a vast, world-wide city known as Ravnica—forever.

Faced with a magical code that is built into the very foundations of the city-world itself, Jace marches into the numinous depths of Ravnica's underbelly in search of the promise of powerful magic. What he finds is perhaps more burden than boon.

Once buried in past, the code resurfaces as Ravnica's power-hungry mage guilds, unbound by the Guildpact that had once maintained order, struggle for control of the plane. But in the drive for primacy, there is no neutral ground.

Jace knows that he can't crack the code on his own, not while the guilds task teams of mages to unravel the mysteries, but he also knows that the danger of the quest is too great to include his friends. As the mystery begins to unravel, the choice may not be his alone.

MTG Novels Coming Back - Thank Beyer

By Gregory Hoover

With the last two MTG block novels being very, very poor, and the demise of the publication of books, the Magic players interested in the story as well as the game were left in the cold. Thankfully members of the development stepped up to save the lore from the abyss and with the new eBook "The Secretist - Pt 1" we the community have been thrown back into what made Magic greater than other games - the story told by the cards.

This installment of lore comes at a perfect time, the Return to Ravnica - our most beloved plane. The initial books had set a masterful stage for the story of the Guilds and with tastes of Ravnica in previous works such as "Agents of Artifice" many community members were eager to see the story of our return played out.

Then the novels were canceled.

Thankfully Doug Beyer took up a mantle of authority and wrote a very fine work regarding the events of the new block in so far as we've been introduced.

With Beyer's last work being the well written but scattered "Alara Unbroken" it was refreshing to see that despite the 'chapters' in "The Secretist" jumping plot lines, it does not jerk around so much as to give whiplash. The characters are well defined and recalled from previous work and the plotting fits a very well crafted story that never gets away from the reader. There are clearly defined antagonists, and a very clear

goal, despite the fact the entire "prize" is shrouded in mystery.

Though short, the entire feel is rewarding, setting up the next installments, though hopefully the large gaps in between the releases do not impact the story flow.

A very reasonable price and a very enjoyable read for an afternoon, this is what the Magic community deserves in the form of the written tale - a clear description of the events regarding the sets and a well crafted story for us to follow through the cards.

Buy this. Show Wizards there is a desire for the lore and I have no doubt we will receive more amazing installments like "The Secretist."

Solid return to Magic novels

By S. Classen

A very fine novella (short), covering the exploits of Jace Beleren while on Ravnica during the new rise of the guilds after the guildpact fell (in the original trilogy).

While this book is short, it's worthwhile for any magic story enthusiast. Much better written than any of the last two novels, and I'm glad to see the return of novels for Magic: The gathering in a well written manner.

If you're curious about Ravnica lore, or like Jace, this is a good buy, especially for the price!

The story behind the cards

By Warren Anderson

It's great to see the story behind the block spelled out. While these novellas will not compete with classics of fantasy literature, I doubt they are meant to. They simply fill in some details and provide some entertainment relating to the most recent MTG block. And for the price, you are getting your money's worth and more. So if you are a fan of the game, and if you have at least a bit of a Vorthos streak ([http://wiki.mtgsalvation.com/article/Psychographic\\_profile#Vorthos](http://wiki.mtgsalvation.com/article/Psychographic_profile#Vorthos)), this book will hit the spot.
