mesmerizing.

Self Portrait

There are certain things about myself
that I romanticize, like the way I have Orion's belt on my chin
or the way my grandmother gave me her hands:
gift-wrapped and covered in flour.

Yesterday, I found a birthmark on my inner thigh
of a heart or split milk
and this morning I found that
there's nothing that a person can do
to make me feel more beautiful, than to
trace me like I hold
simpler lines
beneath me.

It's so easy to fool myself into believing that yes,
of course there are constellations on my skin, or
freckles in the night, as if my body
is a pool that reflects the sky.

But all of this
isn't me being a dreamer,
or a spilt-milk, heart-shaped romantic.

It's just me
trying to turn this husk of muscle and dirty fingernails
into something more,

as something
that I can hold like
my grandmother's hands,

as something
I can keep closer to me /
than my own flesh.

I find this book breathtakingly profound in a sense that it spoke to me, in a way I hadn't seen in a long time.
If you're in love
this book makes sense,

if you're struggling to find your muse
this book speaks to you

if you realize a rebellion in the way you were taught your ways needs to happen
this book speaks to you

if you want answers to unanswerable questions
this book is for you.

if you feel lost, like no one makes sense of your words but you
this book speaks to you.

it takes every aspect of the person.
and sucks the reader in somehow.

I bought it.
i love it.

"Why do you write poetry?"

because I've forgotten everything else.

Raw poetry.

I had read a couple of quotes before purchasing this book and expected to like a few verse. I ended up falling in love with the entire book. By far the best purchase I've made this year. I had literally \$30 in my bank account and traveling and I decided to buy this book. Thank you Shinji for such inspirational words and I

support you fully if you ever decide to release another book.
