Finally! Some truth about the possibilities.

A nutritionist pointed me in the direction of this book after I asked if he was familiar with another pioneer in metabolic wellness. Little did I know Dr. Revici's work has been ongoing (and largely ignored) since the 1930's. If only the medical and research communities had been willing to piggy-back on his coat-tails & progress with more research in this area the last 50 years, we would already have a cure for cancer, HIV and so much else. It's time to pass along this book to 2 people who pass it to 2 more and 2 more....begin the wave that will effect change!
