## Amazon.com Review

The Secret Language of Relationships adopts the format of its bestselling predecessor, The Secret Language of Birthdays, and the compendious collection of combinations that follows proves the book's assertion that "A relationship is a rather mysterious and amazing third entity, one that can come to lead an existence independent of the will or desire of its two partners.... in certain cases a relationship can prove far stronger than either individual, leading us to believe that a certain kind of synergy is at work."

Well-organized, packed with fascinating "personality" information, and replete with snapshots (on every page) of famous couples--whether colleagues, spouses, or lovers--The Secret Language of Relationships is also simple to use. A glance at the two-page chart at the beginning of the book determines your birthday "period." Next, find the period of the person who interests you--friend, parent, child, lover, or mate. The ensuing relationship dynamics are named colorfully and aptly: "Peas in a Pod," "Uncommon Intimacy," "Flexible Structures," "Few Dull Moments," and "Few Antipathies."

Describing 1,176 possibilities, The Secret Language of Relationships sheds light on the classic questions--the hows and whys of chemistry in relationships. Is there a prime ingredient for love at first sight, a Fred Astaire and Ginger Rogers of it all? An entertaining exploration of the very thing we cannot do without--each other--this wonderful volume explains why we feel the way we do about the people in our lives, and how--if necessary--to make it better.

Relationships Defined But Contradictory

By R. Chou

If you want to know what the best ideal mate and a match made in heaven would be like, then here is a start. You would assume that given the title of the book.

Its quite a book as it attempts to explain the relationships between all the different astrological combinations available. Tremendously ambitious, it fails at going more in-depth. Each pair is given half a page of analysis and in that half a page; it covers a brief detail of the type of person is based on horoscopes and whether the combination is good for love, friendship and work.

It is a bit contradictory at times because the description of my wife and I are that we clash. It is true somewhat and her being much more analytical, buy into it. However, although we clash, it also says we are good for "marriage". So thats a positive.

There really is no secret in this book. Its just a bold attempt to explain too much with too little detail. Overall, the book is nice large hardcover book that is entertaining to read. But take it with a grain of salt as its not as accurate; because we are all different and cannot be stereotyped into a certain category.

Not accurate.

By Pixie Rose

I didn't find it to be accurate at all for all the relationships I read about through the book. I was disappointed because the birthday, although not totally accurate, is better.

0 of 0 people found the following review helpful.

I don't know how this works, but it's accurate.

By Rocker Chick

This book belongs in every single person who loves astrologys collection. It's amazing how accurate it is. There are 2 other books in this series from Gary Goldschneider that are also "must haves"
