WOW, WOW, WOW!

Hello Eugenia,

I just finished reading your book. Absolutely brilliant. I felt spellbound for the first time in years. I read for three days, riveted the whole time. The only frustration was having to put the book down and make food, in order to keep reading.

I loved it so much. I was captivated by the story, the characters. At times I cried and laughed. So much wisdom, knowledge and energy came forth. The specific, detailed descriptions were astonishing. I loved the flow, back and forth through time and the way the chapters were laid out. I kept asking myself, how in the world did you write this? Did you go back in time?

I loved the way each character was developed, described and given strength or otherwise. It was so beautiful how they pledged their lives to serve the cause.

Thank you so much for your diligence and perseverance to make this a reality for us readers. I must say I was amazed with myself in sticking with each chapter and actually finishing the whole book. That in itself is most unusual. It felt quite effortless, like I was carried along by the energy. I did intend, focus and follow

through. What a completion. I am so happy to have read this. Thank you again and again for triggering memories and stirring the fire of awakening and self-responsibility. I am still processing. I haven't been out of the house in 3 days. So I need to take a walk.

I loved this book!!

From the first page I was hooked. The plot was immediately intriguing. The characters are developed in a rich, descriptive way such that you can easily step into their psyche. Each of them personifies a different perception of viewing the world, each living their own truth based on their own level of consciousness, An unusual, fascinating read, at 409 pages, I so did not want the story to end!

The author's technique of dipping in and out of different timelines must trigger different synapses in the brain as I found my dreams while reading the book taking on unusual themes and feeling more potent than normal. A sense of deja vu could occur while reading certain passages in the book.

Although "The Secret of Sekhmet" is very different than the author's metaphysical self-help books, I have to believe it is encoded just as her other two are. The book is encouraging subtle changes to our consciousness as we read this intriguing mystery. Because of the author's skill set much more is going on than we realize. Because of this I intend to read this book again soon, certain that new spiritual insights will bubble up from its pages.

I didn't want the story to end! The imagery of Egypt was incredible. Historians, archaeologists, scientists would love this book. This is a trip into ancient times with the bonus messages for consciousness. Absolutely wonderful!
