Better than a semester-long course in contemporary world religions - ...

By Myra Fox

"All Americans, including Muslims, should stay watchful and speak up. Don't let simplistic fear or retribution silence you." [p. 162] Finally, a book on ISIS that offers practical guidance on what we CAN do NOW to make a difference in this war on freedom, and written by two men with extensive firsthand experience in the Middle East. Knowledge is power. Better than a semester-long course in contemporary world religions - this book clarified for me the difference between "Islam" and "Islamism", and gives the

most concise history I've ever read on "Why do they hate us?" Refreshing to read such a unifying book on the topic. Islam's family tree is respectfully and masterfully detailed, with the multiple philosophies within Sunni and Shia explained. Most provocative to me was the chapter, "Did we cause ISIS?" It propels one past the blame game, and launches a new era where we stop apologizing for America's past, and start fighting for America's future - for all Americans, regardless of political stripe. Factual, brutally honest and even hopeful -- this book left me with eyes wide open and a sense of personal empowerment. We CAN make a difference.

A "must read" book after the Orlando massacre!

By L. E. Qualls

Terry and Jim did their homework and colored outside the safe lines of political correctness and religiosity to bring us a manual for our times. The content was useful and relevant, and the writing style engaging - a great combination for engagement. I read the book from cover to cover ... in one sitting. Now I'm going through it again, to pick up anything I may have missed or dropped. Unmasking ISIS is superior to any of the dozen books I've read to date on the same subject, so I'm recommending it to my friends enthusiastically!
