WATER PURIFICATION: THE DEFINITIVE GUIDE TO WATER PURIFICATION, STORAGE, AND ACQUISITION BY WILL JAMESON PDF

You Cannot Survive Longer Than Three Days Without Water

Learn how to clean water using the sun, filters and pills, and a fire.

That's how much water a group of people needs to scrape by in the case of a water emergency. Every day, the average first-world person uses over 300 gallons of water in everything from hygiene to doing laundry. Going through our lives every day it's easy to forget that we could die within three days of going without this precious resource.

What You Can Do to Prepare for a Worse Case Scenario

If the worst happened, would you be ready? Would your knowledge and resources be invaluable to your family and friends, or would you be helpless? The time to think about the future is in the present.

Preppers know the various ups and downs of different water purification and acquisition to a degree, but a desire for a complete working knowledge of different ways to maintain water and ensure it's quality is rare to all but the most dedicated.

Here is some of what you'll learn:

- What temperature water must reach to become clean (hint: it's not boiling).
- What water is okay to drink when traveling.
- How to filter water.
- How to store water.

Water purification is a skill whose value may one day be immeasurable. Isn't it worth any price to ensure the survival of not only yourself, but those you love?

Useless

By Amazon Customer

I was looking for the 'definitive' guide, but found only a definition. I'm new to what passes for books on kindle, I hope this is the exception and not the rule!

5 of 5 people found the following review helpful.

Just the facts

By Jaster Mereel

This book isn't too bad. It is very basic but information is good. I was expecting a lot more details and greater length. You can read this in less than fifteen minutes.

4 of 4 people found the following review helpful.

Not very good

By Craig Sheppard

Let me save u the money and time. Buy a good water filer and store ur own water. Not worth the time or money.
